XRAY SHARK® reject system with rejection bin.

Function:

The bulk flow X-ray system is particularly suitable for food or non-food products in bulk, for example unpacked nuts, dried fruits or sweets.

The high-performance software “XIA” allows instant analysis and detection with high accuracy and reliability, thus avoiding false rejects. The flawless design offers maximum safety and comfort for daily operations.

The hygienic design allows easy cleaning and maintenance of the XD BULK series. All components are quickly removable so that the device is quickly ready for operation again. Thus, the XD BULK is especially suitable for all industries that have to ensure effective hygienic standards.

Application:

Inspection bulk materials like

- nuts or almonds
- sweets
- dried fruit
- legumes like dried peas
- etc.

Industries:

- Food and non-food
